Amendment Number One of 11019-RFI

Questions/Replies:

Questions/Replies:

Q. 1	Do you have an existing application in use for tracking the WELFARE CHECK or is that application part of what you are looking for in this RFI?
A. 1	No. The Court is looking for a composite of hardware & software.
Q. 2	What database system if any is used to record the detainee information? In other words, what sort of a system is in place to know who is housed at a detention facility?
A. 2	The Court is a .NET environment, Windows 7, utilizing SQL Server 2008.
Q. 3	Does the current data base or system retain the items that may be referenced at the time of the welfare check? For example, UNIT NUMBER, JV RISK STATUS, GENDER, PHOTO, ALERT INFORMATION etc.?
A. 3	Yes, with the exception of the Photo.
Q. 4	Do you presently use a MOVEMENT TRACKING system such as Black Creek's TSI-PRISM, Avion's INTACT or others?
A. 4	No.
Q. 5	What is the approximate square footage of the buildings at each of the two campuses?
A. 5	There are two Maricopa County detention facilities, the Durango Facility (DUR) in Phoenix and the South East Facility (SEF) in Mesa. DUR has 14 units, and SEF has 19 units. There are 10-20 rooms per unit. In addition to the rooms, juveniles can sleep on stackable bunks, also called "boats", in the common area. Detailed measurements as to square footage will be made available through the RFP process. Both facilities are very large, primarily single level with the exception of some of the Pod Units that have a partial second floor.

Q. 6	What is the approximate square footage of the outdoor "yard" at each of the two campuses?
A. 6	See response to Q. 5
Q. 7	Do you presently use wrist bracelets, ankle bracelets, or id badges with Radio Frequency Identification (RFID)? If so which manufacturers?
A. 7	No.
Q. 8	Do you presently have a WIFI network you anticipate using for this solution? If so which manufacturers?
A. 8	No.

END OF AMENDMENT NUMBER ONE
